Question 1

Correct

Mark 1.00 out of 1.00

Which statement about SQL is true?

Select one:

- ○ Date values are displayed in descending order by default.
- ◉ Null values are displayed first in ascending sequences. ✔
- ○ The results are sorted by the first column in the SELECT list if the ORDER BY clause is not provided.
- ○ You cannot sort query results by a column that is not included the SELECT list.
- ○ You cannot specify a column alias in an ORDER BY clause.

The correct answer is: Null values are displayed first in ascending sequences.

Question 2

Partially correct

Mark 0.50 out of 1.00

Select the suitable option for retrieving all the employees whose salary range is between 40000 and 100000?

Select one or more:

- ☐ select name,salary from employee where salary between 40000 and 100000;
- ☑ select name,salary from employee where salary between 40000 100000; ✖
- ☐ select name,salary from employee where salary lies between 40000 and 100000;
- ☑ select name,salary from employee where salary>=40000 and salary<=100000; ✔
- ☐ select name,salary from employee where salary is between 40000 and 100000;

The correct answers are: select name,salary from employee where salary between 40000 and 100000;, select name,salary from employee where salary>=40000 and salary<=100000;

Question 3

Correct

Mark 1.00 out of 1.00
